## **Free child development consultations offered**

The Child Guidance Clinic at Oklahoma City-County Health Department is offering free consultations with a Child Development Specialist and Speech-Language Pathologist at Midwest City Library, 8143 E. Reno in Midwest City. The Winter/Spring consultation dates are available the fourth Monday of each month: February 25<sup>th</sup>, March 24<sup>th</sup>, and April 28<sup>th</sup>.

These consultations are for parents of children age one month through five years. This is a great opportunity to ask professionals questions regarding your child's behavior, speech-language skills and overall development. Parents who want more information about what comes next for their child's age or who have concerns can benefit from these consultations. Parent education and age appropriate stimulation activities will be provided and discussed.

Consultations are by appointment only and take approximately 1 hour. Each child must be accompanied by a parent and/or legal guardian. Contact Child Guidance at 425-4412 to register. Child Guidance clinicians present a variety of workshops at your local libraries and other services in the community. You can also request information concerning these services or sign up to receive the Parent Express newsletter which contains information about all consultation sites, workshops, and other programs.

For information on this program and others, call 425-4412 or go the OCCHD website at: <http://www.cchdoc.com>
